- Twinkle Amplitude
- All Stars Bright/Dim
- Twinklers Bright/Dim
- Static Stars Bright/Dim
- Favorite Set/Recall

**StarTiles™** - A turn-key solution to the most stunning fiber optic starry ceiling!

Custom sizes, cuts, shapes and colors are no problem; we will even help with the layout!

Acoustic grade, top-quality rigid fiberglass ceiling tiles

with: [http://www.numinus.com/images/homepage/oak\\_theater2.jpg](http://www.numinus.com/images/homepage/oak_theater2.jpg)

- Twinkling LEDs coupled to fiber optic stars inside the tiles.
- They simply plug-in and daisy-chain!
- Can be custom size/shape/color with a single tile being up to 4' x 8'.
- Tiles mount side by side for a near seamless installation.
- StarTiles can be surface mounted with RotoFast™ anchors available from Numinus.
- Very low profile (Surface is 1 ½" off finish drywall) no overhead access necessary.
- Less than two watts per tile.
- Light source rated at 50,000 hrs.
